October 29
**Hampton Inn Ottawa
& Conference Centre**

Morning Workshops

9:15 am – 12:00 pm

Choose One

MOCK ACCIDENT INVESTIGATION

ALAIN LANGLAIS, Consultant, IAPA

This practical, hands-on workshop is geared to supervisors, joint health and safety committee members and other personnel who have conducted or will be expected to conduct accident investigations pursuant to the *Occupational Health and Safety Act*. You will investigate a mock accident scene with an IAPA Consultant and be guided through the steps of an accident investigation from beginning to end.

Through this experience you will learn the multiple tasks required by your team to investigate the scene properly in order to prepare your report findings. You will gain the knowledge necessary to confidently investigate incidents in your workplace.

VIOLENCE IN THE WORKPLACE

GINA GNASSI, Consultant, IAPA

Is your company turning a blind eye to workplace violence? The consequences of failing to provide a workplace violence prevention program that addresses your unique risk factors can be costly.

Learn about the negative impact of workplace violence, risk factors for employees and the organization and how to identify the necessary elements you should have in place for your violence prevention program to achieve compliance. The Ministry of Labour's requirements for workplace violence risk assessments will also be discussed.

Afternoon Workshops

1:00 – 3:45 pm

Choose One

IS YOUR VEHICLE YOUR WORKPLACE?

DON DANBROOK, Transportation Health & Safety Association of Ontario (THSAO)

Motor vehicle collisions have been identified as the largest single hazard for Ontario workers. For a wide variety of occupations, the primary 'workplace' is often a vehicle. You will learn how to identify hazardous driving situations and some basic solutions to this growing problem. Steps that employers can take in developing a comprehensive policy to address employee driving procedures will be discussed.

PROACTIVE STRATEGIES FOR COMPLIANCE – DISCIPLINE FOR SAFETY

BRENDA VROOMAN, Consultant, IAPA

Learn how to enforce health and safety standards without resentment, backlash or other negative side effects. Case studies will look at severity, lateness, personal protective equipment compliance, lift truck damage and lockout.

Find answers to key questions, including:

- > Why is it so difficult for supervisors to enforce rules?
- > Why do people break the rules and why is the enforcement of rules often challenged?
- > Why do traditional enforcement methods often generate resentment?
- > What are the consequences for workers, supervisors and the organization if everybody just looks the other way?
- > How severe should the discipline be?

REGISTRATION FEES

\$199 + GST per person on or before May 12, 2009

\$225 + GST per person after May 12, 2009
