

20% of All Workplace injuries are caused by Slips, Trips, and Falls!

These injuries are preventable!

Slips

Wear appropriate footwear!
Keep walking surfaces clean and dry!

Things to check for in your workplace:

- Is your equipment in good condition?
- Does lighting allow for good visibility?
- Have supervisors and workers received workplace & safety training?
- Is Personal Protective Equipment (PPE) available and in good condition?
- Are harnesses/arrest-fall systems used when working from heights?
- Is the floor clean and dry?

Trips

Keep objects out of walking paths!
Use ramps and handrails!

Avoid slips and trips which lead to falls!
Ensure safety precautions are used when working from heights!

Falls

Eliminate Slips, Trips and Falls in the workplace!
